RESPONSES OUTSIDE 50 MILES FROM COASTAL HEADQUARTERS: Responses to any vessel located outside 50

Description 2: Public Firefighting Assets. Public firefighting assets are identified for on-land firefighting assistance within their jurisdictional boundaries only. They are not planned for use as onboard firefighting assets, which would come from identified private resources.

DONJON-SMIT has a documented history of successful salvage operations in Alaska that fall outside 50 miles from Anchorage. Three operations of note are the salvage responses for the M/V Kuroshima on Unalaska Island, AK; M/V Selendang Ayu (oil removal); and more recently the oil rig Kulluk which ran aground off the Sitkalidak Island.

We'd anticipate additional travel time allowance of 1 hour for every additional 5 nautical miles for responses located greater than 50 nautical miles from Anchorage & Dutch Harbor, Alaska. For the most remote locations, we estimate response times no greater than three times as long as those prescribed for the offshore planning standards of 33 CFR 155.4030(b).
